NEW MUSIC VIDEO

One More Chance

"One More Chance" is an original Blues Tune by Rosalie Drysdale. The video tells the story of deep regret, and the longing for just one more chance to make it right.

The music and images will take your breath away, and touch your innermost heart.

Special lighting and filming effects, as well as the extreme desolation along the still frozen shores of Lake Winnipeg, make this video one that you will never forget.

"The blues are the roots and the other musics are the fruits. It's better keeping the roots alive, because it means better fruits from now on. The blues are the roots of all American music. As long as American music survives, so will the blues. - Willie Dixon"

The music video is available now at: www.rosaliedrysdale.com/shop.

This album is a must have for 2021! Available May 2021!

What's Your Genre (Part 1 of 6)

When music lovers 🍷 start to follow my music, they often ask about what genre of music I perform.

typical “What do you do” question when you meet someone.

My husband has a funny little story about that, perhaps I can get him to share it sometime 😊.

In any case, back to the article:

A music **genre** is a conventional category that identifies some pieces of music as belonging to a shared tradition or set of conventions. It is to be distinguished from **musical** form and **musical** style, although in practice these terms are sometimes used interchangeably.

Well, I have been described many ways, but conventional is not one of them! 😂

Folks often become a little unsettled when they follow me at www.rosaliedrysdale.com, and find that I perform a wide range of musical types, and styles.

Also, when you look for me on Amazon Music, or Spotify or Apple Music, people search for very specific types of music, and will sometimes miss out on me, since even these platforms like to pigeon hole musicians into one thing or another.

There are literally hundreds if not thousands of musical styles or genres in the World. 🌍

My parents were church ministers, 🏛️ and we travelled around Canada, as they took on different assignments over the years. So I was, from a very early age exposed to a wide variety of people, cultures, and different musical styles all within the confines of a church centred community.

This of course was a supplement to all of the incredible secular musical styles and types that I was exposed to going to school in rural Alberta. 🇨🇦

🎓 In addition to the musical influences of the church community, and just listening with my friends at school, my parents made sure to provide me with an extensive formal music education, and I spent many years taking formal classical piano lessons (completed Grade Ten Toronto Conservatory of Music), as well as formal singing lessons. 🎵
