## NEW MUSIC VIDEO

### Secrets

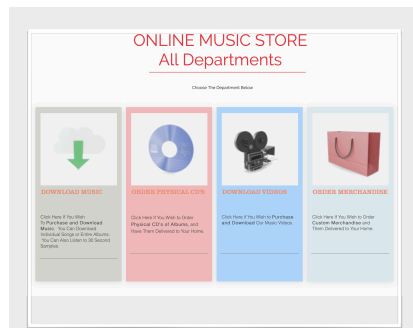

Everyone wants to understand the World today. Current events seem to be spiralling out of control. People are bewildered, People are scared and People are struggling to understand the conflicting information and the seemingly random events.

Rosalie leaves nothing out. "Secrets" is an original song by Rosalie Drysdale, which tells the story of what is behind today's headlines.

This song, and many others, are on her album "Mumbo Jumbo", which will be available Worldwide on May 29, 2021 at all major download and streaming sites.

The music video is available now on: [YOUTUBE](#)

The album "Mumbo Jumbo" is a must have for 2021! Available May 29, 2021! For more information and for special pre-release: [www.rosaliedrysdale.com](http://www.rosaliedrysdale.com)

# MONTHLY OPINION

## What's Your Musical Genre (Part 2 of 6)

Continued From Part One - May 2021

So during my developmental years I was exposed to and trained in a wide variety of musical types and genres. This formed in me a love of all types of music, and provided a very solid technical musical background from which to compose, and perform music.

I do not usually conform to one particular type or genre of music.

It is funny, but often people struggle with this.

! After all, many of the performers they are familiar with in the mass media are performing only one particular type of style of music, they are Rock Stars 🎸, or Country Singers, 🎤 or Jazz Musicians. 🎷

This is an artificial classification, largely aimed at making people easier to market.

All too often our lives are classified, homogenized, stereotyped, by the faceless "suits". 🧑💼

How many of us, in our real lives, are one dimensional people.

We have all been asked:

What do you do?

The expected answer is:

I am a Doctor, or I am a Carpenter, or I work for an airline.

OR

I am a Folk Artist..... 🤔

What if, and I have tried this before, you answer in another way, one that is maybe a little more accurate. After all none of us are simply our vocation.

We are certainly, for some portion of the day, whatever our

genre of Jeff Wayne's "War of The Worlds" ....a masterpiece for the ages!

You will not believe it, Acheron will leave you breathless, it will leave you with a lot of thinking to do, Believe me..you do not want to miss this one. 🎵

Acheron will sweep you up, and take you on a journey through time past, present and future, telling our story in a way that has not been told before. Incredible images, incredible music, incredible level of emotion, see what we think has gone before us, what we are going through now, and what is to come.

### 🌟THE MUSIC

Rosalie Drysdale's new original arrangement of the JS Bach Masterpiece "Tocatta & Fugue" will immerse you and sweep you through this incredible Story. Rosalie was joined in the creation of this fusion piece by some of the greatest artists in the World, including James Creasey, Julian Bradford, Cody Iwasiuk, Sean Irvine. You have never heard Classical Music done quite this way.

vocation is, but we are all much more. We are parents, coaches, spouses, members of a church, uncles, aunts, brothers, sisters, volunteers, friends, lenders, borrowers, music lovers, movie watchers, speakers, students, teachers, lovers, cooks, ..... even within our profession, we seldom do just one thing! 🗣️🎩🇺🇸 We wear many hats 😊

🎵 Music is a many splendored thing. It inspires, it heals, it creates and it stirs many kinds of emotions in us. It is human emotion personified in sound, and is a way of communicating emotion. 🎹

It communicates emotion, not just from person to person, also across time. 🕒

Have you ever been moved to tears by a classical sonata, Moonlight Sonata perhaps....this was written by Ludwig van Beethoven in 1801....it can still move us to tears, and LVB is still able to communicate with us, and stir our emotions across centuries. 🌕

❤️ That is how I feel about music. ❤️

I believe my musical style or genre changes with my mood, and inspiration, and it must embrace all that I am, and all that I feel. 🧘

Since it reflects feelings and emotions, I use many different genres to express those emotions and to communicate with the listeners.

I am very much inspired by the kind of music I grew up with in the church community, but that music also has roots that go far far back.

In addition, after spending so many years formally training, I also am deeply rooted in classical music. 🎩
