In late 2021, I started an **Insider** feature on my website. The **Insider** feature is intended to reward those folks who support my music with various **Insider** perks, such as discounts, previews on upcoming music and videos, as well as special Insider News letters.

In addition to this Insider offer, I had been considering the development of some kind of Subscription service for fans.

I took a look at a whole range of services that were available including setting up a trial Patreon site. But every pre-packaged service I looked at had some major disadvantages. To mention a few, costs and complexity of use and operation.

Sooooooo... in December 2021, I decided to set up my own **unique subscription site**, which is totally contained within my existing website at: www.rosaliedrysdale.com. I am calling this new service my **Insider Gold Club**.

The new **Insider Gold Club** is totally integrated into my website, and has been designed from the ground up for the ease of use and convenience of the users.

DECIPHERING ACHERON

More than any other video, people ask the most questions about the Video "Acheron"

If you have not seen it, you can click the link below and watch the video on Youtube:

[Watch Video on Youtube](#)

This is the most cinematic video I have ever created, and well it should be, the music track is the classical masterpiece Tocatta and Fuge by JS Bach, but not the traditional version...it is a reimagined version of the masterpiece for the 21st century. The reimagined version is included on my Classical Fusion album **"Kickin' It Klassical"**.

How can someone claim to have the audacity to touch JS Bach's immortal piece. Getting the courage to do this was not easy, and it could not have been taken on without the absolute genius of James Creasey and the other musicians and producers that joined me on this musical journey.

The tune is over 12 minutes in length, and in creating both the music and the video we

were faced with the tremendous task of creating a video of such proportions and content, that it would not only keep the viewers attention for 12 minutes, but would also be worthy of the original masterpiece.

The video tells the story of the World, from beginning to end....and then to beginning or rebirth...

The word "Acheron" is taken from ancient Greek Mythology. In ancient Greek mythology, the Acheron was known as the "river of woe", and was one of the five rivers of the Greek Underworld.

We chose this name for the video, because the story of this World can be thought of as a river of events, and all too often those events were of a tragic nature.

The story as told in the video is a combination of myth, biblical theology, futurism, real life historical events and a prediction of the future.

The Code:

In the opening shots, the video shows a scene of the sands of time, and the relentless and desolate landscape over which are the Greek Alphabet Letters Alpha and Omega, which represent the Beginning and the End.

In The beginning, we chose to tell the story of the beginning of the Earth and creation of our World, in a somewhat romanticized version of the book of Genesis.

With the creation of the heaven, and the earth, the waters, the light, and darkness, the land and the waters, the plants and the animals.

After the earth, and the sky, and all of the creatures on the earth, next came mankind.

The creation of mankind and the special relationship with God, including life in and expulsion from Eden are the next images included.

“How to Create a Video Worthy of the 12 minute long masterpiece AND How do you tell an EPIC Story in Just 12 minutes”

Mankind's special relationship with God, is represented through the painting "Creation of David" by Michelangelo.

From there we see a representation of Eden

The first step in the departure from Paradise into the "River of Woe" was the eating of the forbidden fruit from the Tree of Knowledge.

This forever created a separation between God and Man.

Following Man's expulsion from the Garden of Eden, the video jumps to the story of Cain and Abel.

Cain working the fields and Abel herding sheep.

It is now, that the World experiences its first murder when Cain murders his brother Abel.

The face of a father's sorrow over the loss of his son, and the creation of a murderer.

The long passage of time, through many kingdoms, and customs.

With each successive generation, mankind wanders further from God, culminating in the cultural perversities that lead to the wrath of the flood.

The Great Flood

Receding of the waters and the reemergence of land.

Mount Ararat...the traditional resting place of Noah's Ark.

...and the World begins again.....much more to come!!!

This is the end of the **first** instalment of the Deciphering of Acheron.....
Please stay tuned for our second instalment in our March 2022 Newsletter.

Hope you are enjoying the ride!
